

PROJECT SUMMARY

CONSERVACION DEL CARBONO ALMACENADO EN SUELOS Y BOSQUES DE LLANURA BAJO EL MECANISMO REDD

Project holder	Sustinere Global	
Legal representative of the project holder		
Email address of the project holder		
Phone number of the project holder		
Contact person of the project holder		

Account holder	AFCO2 y Sustinere Colombia	
Legal representative	ANDREI STOICA	
Tax Identification Number (NIT)	9015620285	
Identification	1029746	
Email address	deiyam_123@hotmail.com	
Phone	310 869 0148	
Address	CR 12 #114-34 APP 302	
City	BOGOTÁ, D.C.

Sector
Type of Project

The REDD+ conservation project aims to protect and reestablish strategic ecosystems in the capture of CO2, and other ecological functions such as the conservation of biodiversity, connectivity and social value of forestry practices and reforestation on land without forest cover. This project involves a sustainable forest management under the guidelines of the Ministry of Environment of Colombia as a model of development from the forest zoning and land use certificate of the municipality and CORMACARENA. The project area is 30,000 ha, with a regional rate of deforestation of 20% and an average of CO2 net removed per year and per ha: 180 t CO2-e/year/ha. Net average removed per 6,020 ha: 1,083,600 t CO2-e/year-Total, net removed for a crediting period of 20 years: 21,672,000 t CO2-e (*21,238,560) Departamento del Meta, municipio de Mapiripán, sector de Morropelao. Project participants AFCO2 y SUSTINERE COLOMBIA SAS and BIOESFERAS Co2 S.A.S. Special Category Goal 6: Ensure availability and sustainable management of water and sanitation for all, Goal 13: Take urgent action to combat climate change and its impacts, Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss Quantification period Methodology BCR0002_Quantification of GHG Emission Reductions. REDD+ Projects Estimated amount of GHG reductions / removals (ton CO2e) Project ID BCR-CO-163-14-001
